

src/kernel/core/tacoskernel.h

```
graph BT; boot[src/kernel/core/boot.cpp] --> tacoskernel_h[src/kernel/core/tacoskernel.h]; tacoskernel_cpp[src/kernel/core/tacoskernel.cpp] --> tacoskernel_h;
```

A diagram illustrating the dependencies of the file `src/kernel/core/tacoskernel.h`. The file is shown in a grey box at the top. Below it are two white boxes: `src/kernel/core/boot.cpp` on the left and `src/kernel/core/tacoskernel.cpp` on the right. Blue arrows point from each of these two boxes up to the `src/kernel/core/tacoskernel.h` box, indicating that both source files depend on this header file.
